MANAGEMENT'S DISCUSSION AND ANALYSIS

OVERVIEW OF IT INDUSTRY

India's information technology industry is projected to clock revenue of \$225 billion by 2020 and \$350 billion by 2025 as digital and cloud technologies redefine the contours of products and services, the National Association of Software and Services Companies said. The forecast for 2020 is \$75 billion short of an earlier estimate of \$300 billion made in 2013. NASSCOM officials said the projections have not been "scaled down" and are below the \$300 billion mark because revenue from ecommerce has been excluded. Consultancy firm McKinsey & Co. India, which partnered in the study, said the \$300 billion target was the aggressive end of the projection, while the base level was \$175 billion and \$225 billion is the more realistic figure. However, the numbers could reflect the churn caused by emerging digital and cloud technologies that are disrupting traditional businesses.

INDIAN INFORMATION & TECHNOLOGY (IT) INDUSTRY & ITS FUTURE

India has reached a tipping point where cognitive computing, big data analytics, cloud computing, and the rapidly growing Internet of Things (IoT) are transforming businesses around the globe—including those outside the technology sector. We're also seeing promising advancements in materials, software, fabrication techniques and machine design that are likely to lead to an expansion in enterprise applications. The Indian IT sector is expected to grow at a rate of 12-14 per cent for FY 2017-18 in constant currency terms. The sector is also expected triple its current annual revenue to reach US\$ 350 billion by FY 2025.

Public cloud services revenue in India is expected to reach US\$ 1.26 billion in 2016, growing by 30.4 per cent year-on-year (y-o-y). The public cloud market alone in the country was estimated to treble to US\$ 1.9 billion by 2018; increased penetration of internet (including in rural areas) and rapid emergence of e-commerce are the main drivers for continued growth of data centre co-location and hosting market in India. The Indian Healthcare Information Technology (IT) market is valued at US\$ 1 billion currently and is expected to grow 1.5 times by 2020. India's business to business (B2B) e-commerce market is expected to reach US\$ 700 billion by 2020 whereas the business to consumer (B2C) e-commerce market is expected to reach US\$ 102 billion by 2020. Open platforms are a powerful tool for transformative change. They help to accelerate innovation by enabling developers and companies to explore the art of the possible. The IoT, big data analytics, cloud computing, additive manufacturing, and cognitive computing are all areas where we expect to see platform plays in the near future—and where significant investments are being made. We're already seeing rapid growth in Artificial Intelligence (AI) applications for commercial use—and that is due largely to the availability of open developer platforms.

Annexure-B to the Independent Auditor's Report,

Report on the Internal Financial Controls

We have audited the internal financial controls over financial reporting of **BHARATIYA GLOBAL INFOMEDIA LIMITED (CIN No. L74999DL1994PLC062967)** ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
